Fake game, no game content.. not worth the cost. Sigh, where do I even begin with this one?

Chromium? check. Bad game engine

NO settings? Check

NO window options? check

terrible controls? check

terrible hit detection?> check

lack of any explanations, even controls? check

poor grammar and english? you betcha!

this is early access, 99% of the screenshots you see, are NOT in this game.

the sword attacks terribly, there;s no way to regain health, everytime you kill an enemy a gigant HUD blots of either side of the screen, and then you get through level 1 - become invincible, and fight a : guardain" boss that you can only hit a few times once every 15 seconds. And you never take damage.

And then a cutscene * haha * plays out, half of which you can;t read if you're on the darker side of the level.

and then the game says it;s early access, that's all!

and then you get stuck on a screen that says CHOOSE ONE!

it doesnt say WHAT to choose, or WHERE you cick or what button to hit, i randomly cicked my mouse around and somehow advanced to the next " stage "

in this stage, almot none of the floors were properly done, clipped through walls, and was walking on platforms that don't exist, or i walked about amile above the ground.

and then I got stuck in a small indent that I could not jump out of no matter what.

GAME OF THE YEAR.

don't buy into the lies the screenshots tell you, this game is rubbish, Early access rubbish.
overpriced at that.

avoid this game at all costs.

. Top notch VN.

10/10 Voice Acting, 9/10 Plot, 8/10 Pacing, 9/10 Twist, 10/10 Graphics.

Pros:

>> Godly VA, and damn that plot, not just that plot (ಠ_ಠ), but well you know, story plot; Graphics are really good.

>> Not perfect but hey, must buy.

Cons:

>> Pretty Expensive for a pretty short game, you can probably finish the game in like 12 hrs or something if you want too.

>> FANTASTIC VN OVERALL

PS: Wish they would tl the sequel too.. Alien Hallway is very aptly named. It takes place entirely in hallways and it has aliens in it.

The game is a simplistic tug-of-war. And when I say simplistic, I don't mean it's been dumbed down, I mean whack-a-mole has more complexities than this. You spawn soldiers and they automatically walk down the hallway towards the endless alien spawner. The only decision you have is when your soldiers should use their grenades but even those are on a cooldown so it's no big thing if you waste a few.

In between missions you get to spend the money you earn on upgrades in a small metagame and as the game progresses more soldiers and aliens unlock. The gameplay however, never changes.

Because everything is on a tiered cooldown so you will never have any choices to make beyond which soldier to build first. Everything after that is simply bought when the cooldown ends, not when you need or want it.

Alien Hallway is a perversion of the genre and so easy even a child could play it and win.. When did yukari become a slav?

As a WW2 enthusiast with a particular love of the western fronts history I was really excited to see this mod. For a time it was very enjoyable and still is when you can find active servers however they are far and few between to the point where I have not seen a HOTW server with more than 20 people on for over a year. Its such a shame.. Unlike alot of DLC this is free. Yes you heard me right it is 100% free no catches. So what do you get when you download this DLC well you get alot of classic tractors and equipment and if you remember the classic tractors DLC for Farming Simulator 2011 well this is very similar to that DLC except it is free and it is missing like one thing due to it being already installed in the base game. Also unlike other FS2013 DLC this one can actually be edited at will due to the fact it is stored inside of .zip instead of a .dlc file. Either way this dlc is definetley worth a try.. This is probably THE reference for all medieval grand strategy fans out there. You can spend hours managing your dynasty's spread across Europe, or keeping in check its many rivals. For a more recent game, check out the sequel : Crusader Kings II.. Mix of Isaac and Gungeon.

Good but too short and easy.. This has some huge potential!! As it is now in Alpha it's best with 1 less cop than robber honestly so some balancing might be needed in the future. Buuuuu even with that, my friends and I haven't laughed and had so much fun in awhile. I'll continue to play and check up on the game as time goes by but for the current alpha price and the potential I would 100% recommend this!. Far from as "relaxing" and "casual" as the game makes itself out to be, this title is unfortunately nowhere near as enjoyable as it should or even could be. While the basic idea is quite unique, the game, sadly, wastes it entirely on a much more "self-competitive" approach than a game with the word "Zen" in the name should have, considering that every time you play it, you'll be plagued by "colour X% of figure with less than X length of rope to win!", and even further ruining its self-proclaimed status as "Zen" by collecting high-scores from it as well! 2.6/10. this software is very easy to use and only minor issues have been seen, those of witch were not the softwares fault.

-the good

*allows for direct recording to MPEG

*can record sound as a separate factor

*runs quietly in the background - apparently about 5fps drop

-the bad

*video files can easily be corrupted, they do not save if the game freezes

*no identyfication of recording beginning when the record key is pushed

~ so could go a while being unaware of recording status, not even a unique sound for beginning

overall this software is great, however at £36, it is steap, id place it at £30 MAXIMUM, unless ofcourse you really want recording sofftware

~any questions feel free to ask :). While the story is pretty static, with things that are happening in the world being hard to stop or avoid, there are a very few ways to do just that, and even if you can't, towards the middle to end this changes entirely. And the way you get there can be very different depending on what you do.

Either way, you really have a lot of meaningful choices and can play the game your way. A promise many games make, but few actually provide.

If you liked Choice of Robots' humor and general style, you'll like this one, unless it's theme isn't something you'd enjoy.. OK so this is Breakout with a couple twists. But the twists turn what could be a boring experience into a fun casual twitch game. This is a game that you can waste a few minutes with and unwind. It is single player ONLY so no interaction, but sometimes thats a good thing.... Loved the backstory of the game and it's actually fun to use do ye old maths again :D I hope it earns some noms
